## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to polypeptides related to SEQ ID Nos: 2 and 3 (rodent sequences), classified in class 530, subclass 351.
- II. Claims 1-20, drawn to polypeptides related to SEQ ID Nos: 5 and 6 (human sequences), classified in class 530, subclass 351.

Claims appear in different groups because they encompass different inventions.

The inventions are distinct, each from the other because of the following reasons:

The claimed molecules are derived from different animals and have different sequences and thus different structures. Different searches are thus required for the different molecules, and restriction for examination purposes as indicated is therefore proper.
